## David Lecours

As a strategist, designer, writer and speaker, David is on a mission to help A/E/C firms attract great clients and talent.

David graduated from the University of Southern California thinking he would become an architect. But, he discovered a passion for marketing while working for Paramount Pictures and Reebok. David attended UCLA to study—and eventually teach—graphic design. David achieved his Certified Professional Services Marketer (CPSM) designation from SMPS and was named “Marketer of the Year” by SMPS San Diego.

## Petra Ives

Design Director

Shortly after finishing Design School in Munich in 2000, love transplanted Petra from her orderly and rainy home of Germany to laid-back, easy-living San Diego. She embraced Southern California wholeheartedly and picked up hiking, surfing, and the taste for sushi. She went back to school to expand her design education and polish her English skills starting at San Diego City College and finishing at San Diego State University. Petra joined AIGA to network, lead events, and extend her creative family.

Now, fully rooted, Petra splits her time between branding and design strategy, teaching design at the City College, traveling, and spending time with her husband and two kids.

## John Dennis

Web Developer

John Dennis has been a digital designer and developer for 25 years. He is past president of AIGA San Diego. John holds a Bachelors and Masters degree in Fine Arts from the University of Wisconsin. John worked at two international media development and marketing teams, Time Warner Interactive and Qualcomm. His strong background in graphic design, multimedia interface design and content planning, makes John comfortable working with engineers, marketing managers and the zaniest of designers. In addition, John has dedicated many years to an intensive investigation of design and development with WordPress.

John is married and enjoys yoga and music in his hometown of La Jolla, California.

## Emily Castillo

Senior Designer

Emily found her love for art & design in her youth. Drawing constantly and excelling at any creative project. After winning many art competitions throughout school, she chose art to be her future, then pursued Communication Design at Texas State University. After graduating with her BFA and some honors, she moved slightly north to Dallas, Texas, where she learned the trade of Marketing and Advertising. Emily has 7 years of design experience under her belt, and loves to talk *anything* design.

During the late hours of the night, she finds inspiration through longboarding, gaming, and many other forms of art. Currently, Emily is living in Santa Fe with her partner and their two cats.
