You'll Work With an Elite Team

All we have is a focused, elite team. Get to know them on the next page. There's no bait-and-switch handoff to junior staff doing the work. 03

Proven Process and Peer Endorsements = Low Risk

We understand that hiring a creative agency that you've never worked with is risky. You don't have time or budget to fire the agency and start over. But we come highly recommended by many of your AEC marketing peers. LecoursDesign offers a proven process and a track record of successful branding projects. We're committed to making our work together equally successful and fun.

David Lecours

Principal & Strategy Lead

As a strategist, designer, writer and speaker, David is on a mission to help A/E/C firms attract great clients and talent.

David graduated from the University of Southern California thinking he would become an architect. But, he discovered a passion for marketing while working for Paramount Pictures and Reebok. David attended UCLA to study—and eventually teach—graphic design. David achieved his Certified Professional Services Marketer (CPSM) designation from SMPS and was named “Marketer of the Year” by SMPS San Diego.

Petra Ives

Design Director

Shortly after finishing Design School in Munich in 2000, love transplanted Petra from her orderly and rainy home of Germany to laid-back, easy-living San Diego. She embraced Southern California wholeheartedly and picked up hiking, surfing, and the taste for sushi. She went back to school to expand her design education and polish her English skills starting at San Diego City College and finishing at San Diego State University. Petra joined AIGA to network, lead events, and extend her creative family.

Now, fully rooted, Petra splits her time between branding and design strategy, teaching design at the City College, traveling, and spending time with her husband and two kids.

John Dennis

Web Developer

John Dennis has been a digital designer and developer for 25 years. He is past president of AIGA San Diego. John holds a Bachelors and Masters degree in Fine Arts from the University of Wisconsin. John worked at two international media development and marketing teams, Time Warner Interactive and Qualcomm. His strong background in graphic design, multimedia interface design and content planning, makes John comfortable working with engineers, marketing managers and the zaniest of designers. In addition, John has dedicated many years to an intensive investigation of design and development with WordPress.

John is married and enjoys yoga and music in his hometown of La Jolla, California.

Emily Castillo

Senior Designer

Emily’s love for art and design has been a defining aspect of her life since an early age. Her exceptional creative projects have been recognized with numerous accolades in various art competitions throughout her school years. Her unwavering dedication and tireless efforts have paid off, as she gained invaluable experience in Design & Marketing over the course of her seven-year career in Texas. Driven by her ambition to make her dreams a reality, she earned a BFA in Communication Design from Texas State University with honors in 2015.

Currently based in Santa Fe, her passion for design and creativity continues to flourish, and she draws inspiration from activities such as longboarding, gaming, and different art forms during her late-night hours.
